

February 6, 2026 - **International Day of Zero Tolerance for Female Genital Mutilation**

On this **International Day of Zero Tolerance for Female Genital Mutilation (FGM)**, the National Council of Women of Canada stands in solidarity with women and girls around the world who have endured or are at risk of this deeply harmful violation of their human rights.

FGM is not a cultural tradition to be preserved—it is a violent act that causes lasting physical and psychological trauma. It constitutes gender-based violence and is now being identified as a form of Non-State Torture. In fact, the former UN Special Rapporteur on Torture Manfred Nowak declared that FGM is indeed a form of torture by non-State actors**.

When practiced or condoned by community members, family networks, or local authorities outside formal state power, it falls squarely within the global understanding of acts of torture committed by non-state actors.

Canada, along with UN Member States, has committed to the elimination of FGM by 2030 under the Sustainable Development Goals. Achieving this requires not only legal prohibitions but also education, survivor-centred support, and sustained community engagement that empowers women and girls to claim their full bodily autonomy and dignity.

The National Council of Women of Canada reaffirms its commitment to ending all forms of violence against women and girls, including FGM. We call upon governments, civil society, and international partners to intensify efforts toward prevention, accountability, and survivor support—ensuring every girl can grow up free from fear and harm.
